

Climasure™ 33-inch Single-Stage Gas Furnaces

80% and 95.5% AFUE Models

■ Compact Design for Easy Installation.

Now available at a 33-inch height, Climasure single-stage gas furnaces are a compact solution for practically every installation—closets, attics, garages and other tight spaces.

Compact 33-inch cabinet easily fits in tight spaces and is easier to handle during installation because of its short height and reduced weight.

Multi-position design—all configurations supported. Conversion from upflow to horizontal or downflow is under 5 minutes for the Climasure 80% 8.S models and under 10 minutes for the 95.5% Climasure 9.S models.

95.5% models include patent pending condensate removal system—requiring no external traps.

Doors are same size—easy to rotate as required by installation.

Double folded edges—protects your hands while servicing.

95.5% AFUE Model Shown

95.5% AFUE rated models are ENERGY STAR® qualified.

Sealed doors reduce air leakage to under 1% and feature quarter turn knobs for easy door removal and replacement.

Blower motor and control box is conveniently located on a slide out support track.

Designed for a single side return for 5-ton models—no need for dual returns ever again.

All wiring to the control board is located at the front of the unit for easy access and serviceability.

No knockouts required for electrical, gas or venting connections.

Removable bottom panel provided for easy conversion.
